

Chandra Prakash Choubisa

Machine Learning Enthusiast — Python • FastAPI • Scikit-learn • Streamlit
cpchoubisa18@gmail.com — Udaipur, Rajasthan — GitHub — LinkedIn — Portfolio

Professional Summary

Aspiring AI/ML Engineer with hands-on experience in Machine Learning, Deep Learning, and Python, focused on building end-to-end AI applications. Skilled in developing practical, real-world ML solutions using Scikit-learn, Streamlit, FastAPI, and Flask, with a strong foundation in data preprocessing, model building, and deployment. Driven by curiosity and consistent practice to strengthen problem-solving ability and engineering fundamentals, with the goal of growing into a strong AI/ML and backend engineering role.

Technical Skills

Languages: Python, Java, C, c++, JavaScript, HTML, CSS

ML & Data Science: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Naive Bayes, Random Forest, SVM, KNN

Tools & Platforms: Streamlit, FastAPI, Flask, Git, GitHub, MySQL, MongoDB, Jupyter Notebook, Google Colab, IntelliJ IDEA

Concepts: Machine Learning Pipelines, Feature Engineering, EDA, Data Preprocessing, OOP, DSA (Java), JDBC, Backend

Projects

Spam Hunter – AI-Powered Spam Detector

Live: [spam-hunter.streamlit.app](#)

- Built an ML-based spam detection web app using Python, Scikit-learn (Naive Bayes + TF-IDF), and Streamlit
- Achieved high accuracy on SMS/email spam classification with a real-time interactive UI
- Tech: Deployed live on Streamlit Cloud
- Python, Scikit-learn, Pandas, NumPy, Joblib, Streamlit — GitHub: [github.com/pr4kash18/spam-message-detector](#)

Car Price Prediction

GitHub: [github.com/pr4kash18](#)

- Developed a regression model to predict car prices using multi-model comparison (Linear, Random Forest, SVR, KNN, etc.)
- Implemented full preprocessing pipeline — imputation, scaling, ordinal & one-hot encoding using sklearn Pipelines
- Tech: Compared models using R^2 Score and MAE
- Python, Scikit-learn, Pandas, Matplotlib, Seaborn, Streamlit

House Price Prediction

GitHub: [github.com/pr4kash18](#)

- Built regression model to predict housing prices with feature selection and preprocessing pipeline
- Tech: Deployed as interactive web app
- Python, Scikit-learn, Streamlit

Internship Experience

AI/ML Intern – Grras Solutions, Jaipur

Jan 2025 – Jun 2025

90-Hour Industry Internship Program

- Completed hands-on training in Machine Learning, Deep Learning, and LLM fundamentals
- Performed end-to-end data preprocessing — data cleaning, EDA, feature engineering using Pandas & NumPy
- Built and evaluated ML pipelines using Scikit-learn covering classifiers, regressors (KNN, SVM, Random Forest, etc.)
- Implemented encoding strategies (OneHotEncoder, OrdinalEncoder) and StandardScaler in sklearn Pipelines
- Explored Deep Learning concepts and introductory Large Language Model (LLM) architecture

Education

Geetanjali Institute of Technical Studies, Udaipur

2024 – 2028 (Expected)

B.Tech – Computer Science & Engineering — CGPA: 6+ (Ongoing)

Certifications

- Digital Productivity with AI – YuWaah & UNICEF
- Machine Learning using AI – Grras Solutions
- AI/ML Internship Certificate – Grras Solutions
- Break Into Data Analytics – Coding Ninjas & KodeInKGP
- Basic Python – Simplilearn
